Present Appropriations Are Small Compared With What Is Contemplated, Says President Taft ... Executive Favors Budget Form of Appropriation.

Pearl Harbor is destined to become the great naval base of the Pacific. It will be necessary to make Corregidor as nearly impregnable s modern engineering skill can make it, but it is upon Pearl Harbor will necessitate the expenditure of an immense sum of money in Honohin In fact the present appropriations for Pearl Harbor work are mall in comparison." - President Taft in speech at Newark.

PRESIDENT TAFT.

### WARM PRAISE FOR THE FLORAL PARADE

Editor Advertiser: Through your columns permit me to express to Parade Director-in-Chief Harold G. Dillingham and the committee in charge of arrangements the appreciation of your Hawaii winter guests for their efforts in presenting one of the most unique and beautiful floral parades I have ever witnessed in any part of the world, and I have seen many, from Pasadena to Cairo, Egypt.

We who were privileged to serve on the Committee of Judges found the task no easy one, compelled as we were to judge each entry upon five different points, but with enthusiasm and appreciation for all we only regretted we were not permitted to mark one hundred plus for the spirit with which those who were participants and those who were observers entered into the day's events.

For one I wish to express thanks for the position afforded to see well "the passing show," for comfortable transportation to the baseball park, and especially for the beautiful souvenir pins presented to the judgespins which will enable us to carry away with us lasting memories of a republicanized kingdom and an Americanized Hawaii.

Plagrant violations of the auto ordicance are daily occurrences, but the chuses in one or two directions are takng little notice of other ones, The ordinance says that the numbers

or machines given out by the police FOR AMENDMENTS THE OBSERVATORY shall be of a certain white color—white on a black background. White numbers on black tail boards, hung under the rear of machines by chains or Hawaii's Bill Expected to Pass He and Assistants Erect It by straps are proper and meet the provisions of the ordinance. Those painted outlines of the figures, whether painted on black backgrounds, or not, do not meet the requirements of the ordinance. These numbers are more general on the The numbers are more tracings, the body of the figure not being filled in even at close range, when the machines State assistance, are traveling rapidly, they can not easily be determined.
